Introduction

The Statistical Report of Kentucky Public Libraries is the compilation of data taken from the Annual Report of Public Libraries Application for State Support. This report reflects the funding years July 1, 1984 to June 30, 1985 as a statewide compilation. For July 1, 1985 to June 30, 1986, the report provides detailed analysis for each county public library.

A Lotus 1 2 3 software package was used in the compilation of this report. Please notify Ed Klee of any errors or suggestions for how this report could be more helpful.

Much credit is given to University of Kentucky College of Library and Information Science intern Heidi Moore. She had to learn Lotus from the beginning to end and singlehandedly mastered its use.

Preface

The format of the 1985-86 Annual Report provides information by county, particular item, and comparison of statistics from the Annual Report of Public Libraries Application for State Support. On page viii, items are defined and numbered. The report is divided into four sections: Items 1-56, 57-110, 111-166, and 167-197. Each section covers every county in alphabetical order before starting the next section of items. Items are listed and numbered on the first column of every left page and continue on the right page. To access information by county, an index is provided on page 112. A subject index is also included on page 113 which locates items that may be of particular interest.

Fiscal Year 1985/86

ANNUAL REPORT OF PUBLIC LIBRARIES
APPLICATION FOR STATE SUPPORT

I N S T R U C T I O N S

* The report should be returned by August 15, 1986 to your Regional Librarian. State Aid checks will not be sent until the report is received by the Department for Libraries and Archives. Return three completed copies to your Regional Librarian.
* This report covers the fiscal year beginning July 1, 1985 and ending June 30, 1986.
* Please type or print the information requested.
* Instructions for a particular section are indented.
* If a particular question is not applicable, please mark N/A.
* Do not submit separate report forms for Branches. This report should include information for all Branches.
* This revised report form combines the Annual Report of Public Libraries and the Application for State Support; therefore, be sure to answer the question: DOES YOUR LIBRARY WISH TO APPLY FOR STATE SUPPORT. This question appears on page 26, Section XV.
* POPULATION: The number of persons making up the area to which the activities of a library are directed; for example, countywide population if the library provides countywide service. (Use 1980 Census)
* BE SURE TO CHECK YOUR ADDITION AND SUBTRACTION.
* Use the attachment sheets if needed for additional information on the applicable section.
* Additional forms may be obtained from the Department for Libraries and Archives; Attention: Mrs. Ellen Hellard

ELIGIBILITY REQUIREMENTS FOR STATE SUPPORT

PUBLIC LIBRARIES

JULY 1, 1980

(REVISED)

KRS 171.201.205 authorizes funds to the State Librarian for the purpose of promoting, aiding and equalizing public library service in the Commonwealth. The legislative intent clearly states in KRS 171.205 that such aid is to add to, not relieve, local communities of their responsibilities in providing public library service. The following requirements indicate public library eligibility for receiving state support.

1. The public library must be legally established in any of the ways set forth by the Kentucky Revised Statutes. These include county libraries and city libraries contracting with Fiscal Courts to provide county library service.

2. Service must be given actively to rural and/or urban areas in a county through bookmobiles, branch services or other approved extension services.

3. County and Bookmobile Librarians must be certified by the Kentucky Board for Certification of Librarians. (All library personnel are encouraged to become certified.)

4. County Libraries should be kept open at least the following hours:
for counties with a population . . . . . .

under 40,000	36 hours a week
of 40,000 - 75,000	48 hours a week
of 75,000 or over	60 hours a week

5. Adequate, conveniently located space must be provided in the library building or room for study and reading in the library, and for sufficient shelving for the bookstock, or plans must be prepared to provide such space.

6. Library Boards need to show evidence of advancement each year in the County Library Program through as many as possible of the following:

   (a) Good rapport with Fiscal Courts and City Councils through regular contacts and reports.
   (b) Increase in local support.
   (c) Purchase of local books and needed equipment.
   (d) Increased training for Librarian(s) and Bookmobile Librarian(s).
   (e) Increased Library hours open (where needed).
   (f) Better planned Bookmobile and/or extension service.
   (g) Improved Library Building and maintenance.
   (h) Programs for all segments of the public.

7. Local income from public sources not taxed based must not be reduced below that of the previous year. Every effort must be made to increase local income each year until income is adequate to meet other requirements of this document.

8. Library Boards should meet at least 12 times each year on a regularly scheduled basis for transaction of Library business and for the study of Library and Bookmobile problems, as authorized by the statute which legally established the Library.

9. public library's intent to meet these eligibility requirements and apply for state support will be indicated by filing form, DLA-FS Annual Report of Public Libraries, Application for State Support, on a yearly basis between July 1 and August 15.

State support may be withheld or proportionately reduced if these requirements are not met.

EXPLANATION OF FINANCIAL SHEETS

If your library is a special district you are required to publish the names and addresses of the members of the library board and library director and either a summary financial statement which includes the location of supporting documents, or the location of district financial records which may be examined by the public. (KRS 65.070)

The financial pages (2 and 3) format meets the requirements for special districts' filing as mandated by KRS 65.065.

PAGE 2

The financial sheet on page 2 reflects the Library's Proposed Budget and Actual Expenditures. The third column reflects expenditures exceeding the budgeted category (in parenthesis) or under the budgeted category.

The category Expenditures -- reserved for encumberance would be used for those libraries that wish to show monies encumbered for outstanding orders that have not been paid prior June 30, 1986. This is optional and most frequently used in an audit.

PAGE 3

The financial sheet on page 3 reflects the status of all accounts as of June 30, 1986. Please list all receipts and identify the category where the funds should appear. For special taxing districts, funds would be placed under the General Operating Fund. If a library has a special fund earmarked for specific purposes use one of the succeeding five columns.

Grants from KDLA such as book grants, bookmobile grants, state aid, special grants, amortization, capital construction, renovation and repair, MURL, networking grants and continuing education grants would appear under KDLA Grants. If a category heading is not used and you need the space for another category, strike through the unused heading and re-label the column for your use.

The category excess or deficiency of receipts over expenditures is the comparison of receipts to disbursements. For each column if the expenditures exceed the receipts, place the number in parenthesis. If the figure did not exceed receipts, leave the number without parenthesis.

Section III LIBRARY STAFF -- Number of employees in budgeted positions

Definitions: Full-time employees: those employees who are considered to work a full-time work week. A typical week is a week in which the library is open its regular hours, containing no holidays.

Part-time employees: those employees who work less than a full-time work week. To compute full-time equivalents (FTE) of part-time employees, take the number of hours considered by the reporting library to be a full-time work week. (E.g., 60 hours per week of part-time work divided by 40 hours per full-time week equals 1.5FTE).

Section V CIRCULATION AND USE

Number of Registered Borrowers _____ -- Last date patrons were re-registered _____

Circulation is the statistical measure of books and other materials and equipment lent to patrons for use inside or outside the library and its agencies. Count as outlined below:

BOOKS AND MATERIALS

Count each item checked out from the library and the bookmobile as one, to any destination. If one title is read to 20 children, circulation is one.

No automatic renewals. Renewals are counted as circulated only if the patron requests this by mail, telephone or in person.

Clippings are defined as one article clipped from a magazine or newspapers, etc. regardless of the number of physical parts.

HOLDINGS AND/OR CIRCULATION OF AUDIO-VISUAL MATERIALS:

1. Circulation: Indicate the number of times the material is loaned from the library or used in the library for a special purpose. Example: Microfilm used by a patron should be counted as one (1) circulation per reel. A record may either be checked out to a patron for use at home or used in the library to be counted as circulation. A film which is checked out or used in the library may be counted as circulation.

2. Maps and charts composed of two or more parts are counted as one unit.

   Count each film or filmstrip as one unit except when two or more parts make up one title--then count the title as one unit.

   Count each film slide as one unit.

   Count each piece of audio-visual equipment as one unit.

REFERENCE TRANSACTION. An information contact that involves the use, recommendation, interpretation, or instruction in the use of one or more information sources, or knowledge of such sources, by a member of the reference or information staff. Information sources include: (1) print and nonprint materials; (2) machine-readable databases; (3) the library's own bibliographic records, excluding circulation records; (4) other libraries and institutions; and (5) persons both inside and outside the library.

A question answered through utilization of information gained from previous consultation of such sources is considered a reference transaction, even if the source is not consulted again. A contact that includes both reference and directional service is one reference transaction. Duration should not be an element in determining whether a transaction is reference or directional.

Number of reference requests/transactions received _____

Number of reference transactions answered in house _____

Number of reference transactions referred to other libraries _____

NOTE: This does not include directional transactions (Examples include: directions for locating facilities such as special rooms, carrels, and telephones; directions for locating materials for which a user has a call number or which are designated on signs or floor plans; supplying library handbooks, policy statements, floor plans, and materials such as paper pencils; and assisting users with the operation of machines.)

If reference transactions were not kept for the total year, please keep a record of those activities for one typical week. This can be completed before June 30th or before you submit the report to your regional librarian.
